Plastic Caps, Black Smooth Disc Top Caps

The smooth black PP disc top closures are made with a slight indent in the plastic top, which is designed to have a light amount of pressure applied to it in order to expose the orifice where the product can be dispensed. The 20/410 disc top caps have .270 mm orifices, while the 24/410 and 24/415 caps have .310 mm orifices. Applying light pressure to the open end of the cap will also easily close the cap. The black polypropylene disc top closures are a great choice for dispensing products such as shampoos, conditioners, lotions, and soaps.

Stock #	Size	Cap Code	Case Pack	Price / Cs
2522-01	20/410	C	144/bag	\$15.84

Plastic Caps, White Plastic Spout Caps

The white LDPE flip spout closures have a 3.0 mm orifice for dispensing, and are available in three sizes, 20/410, 24/410, and 28/410. The flip top closure is designed with a dispensing spout that dispenses product when the flip top is open, and the spout retracts into the closure when not being used. The white plastic spout caps can be purchased in bags of 144 or by the case in bulk quantities, and are a great closure selection for dispensing many liquid products. Be sure to match the cap code of the container, with the cap code of your closure choice for proper compatibility.

Plastic Caps, White LDPE Controlled Dropper Tip Plugs

The white LDPE controlled dropper tip plugs are great for dispensing liquids where you need to control the amount of product released. The controlled drop tips are available in 8mm, 13 mm, and 15 mm sizes. The 8mm tip dispenses 42 uL per drop; the 13mm and 15mm tips dispense 40 uL per drop. Each tip dispenses one drop per second, which is ideal for low viscosity liquids. Try using these controlled dropper tip plugs to dispense water and alcohol-based products such as eye drops, plant food and more.
